I'll go over the colors one more time that we use: Titanium white, Thalo green, Prussian blue, Van Dyke brown, Alizarin crimson, Sap green, Cad yellow, and Permanent red. You have to make these big decisions. We'll have a super time. Let's have a little bit of fun today.

The secret to doing anything is believing that you can do it. Anything that you believe you can do strong enough, you can do. Anything. As long as you believe. As trees get older they lose their chlorophyll. No pressure. Just relax and watch it happen. Just go out and talk to a tree. Make friends with it. This is unplanned it really just happens. But we're not there yet, so we don't need to worry about it.

We don't really know where this goes - and I'm not sure we really care. Fluff it up a little and hypnotize it. If there's two big trees invariably sooner or later there's gonna be a little tree. If you didn't have baby clouds, you wouldn't have big clouds. That's why I paint - because I can create the kind of world I want - and I can make this world as happy as I want it. Pretend you're water. Just floating without any effort. Having a good day.

Imagination is the key to painting. There's not a thing in the world wrong with washing your brush. The least little bit can do so much. Once you learn the technique, ohhh! Turn you loose on the world; you become a tiger. You've got to learn to fight the temptation to resist these things. Just let them happen. Don't kill all your dark areas - you need them to show the light.

This is a caption.

Everything's not great in life, but we can still find beauty in it. Follow the lay of the land. It's most important. Every highlight needs its own personal shadow. Let your imagination be your guide. It's cold, but it's beautiful.

You have to make those little noises or it won't work. Nothing wrong with washing your brush. Clouds are free they come and go as they please. You can do anything here - the only pre-requisite is that it makes you happy.

Let's put some happy little clouds in our world. Volunteering your time; it pays you and your whole community fantastic dividends. Let your heart be your guide. Let that brush dance around there and play.

Take your time. Speed will come later. This is the way you take out your frustrations. Be careful. You can always add more - but you can't take it away. Even trees need a friend. We all need friends.

The little tiny Tim easels will let you down. You need the dark in order to show the light. In your world you have total and absolute power. Let's build an almighty mountain. I really recommend you use odorless thinner or your spouse is gonna run you right out into the yard and you'll be working by yourself. Painting should do one thing. It should put happiness in your heart.

Sometimes you learn more from your mistakes than you do from your masterpieces. Isn't that fantastic that you can create an almighty tree that fast? Now let's put some happy little clouds in here.

Steve wants reflections, so let's give him reflections. Very easy to work these to death. A little happy sunlight shining through there. Anyone can paint.
